The Structure of the Lingua Latina Curriculum

The Lingua Latina curriculum is divided into several components, making it accessible to a wide range of learners. Each book in the series is structured to progressively build upon previously learned material, ensuring that students develop a solid foundation in the language.

Core Components of Lingua Latina

There are several core components to the Lingua Latina curriculum:

- **Textbooks:** The primary textbooks, "Familia Romana" and "Roma Aeterna," present Latin within a narrative context, allowing students to learn vocabulary and grammar through stories.
- **Exercises:** Each chapter includes a variety of exercises designed to reinforce the material covered, ranging from translation tasks to grammatical drills.
