Types of Alliant Credit Union Business Accounts

Alliant Credit Union offers several types of business accounts, each designed to cater to different financial needs. Understanding these options can help business owners choose the right account for their operations.

Business Checking Accounts

The business checking account is a fundamental product for managing daily transactions. Alliant's business checking account features include:

- No monthly service fees with qualifying conditions.
- Unlimited transactions at no additional cost.
- Access to thousands of ATMs nationwide.
- Online and mobile banking tools for easy management.

These features provide flexibility and convenience, allowing business owners to focus more on their operations rather than banking logistics.

Business Savings Accounts

For businesses looking to save, Alliant Credit Union offers a business savings account that helps companies grow their funds. Key features include:

- Competitive interest rates that grow your savings.
- No monthly maintenance fees under certain conditions.
- Easy access to funds while still encouraging saving.

This account is ideal for businesses seeking to set aside funds for future investments or unforeseen expenses.

Business Money Market Accounts

For businesses that want higher interest rates while maintaining some liquidity, the business money market account is a suitable option. Benefits include:

- Higher interest rates compared to traditional savings accounts.
- Limited check-writing privileges for easy access to funds.
- Security and stability with federally insured deposits.

This account type provides a balance between earning interest and having quick access to funds.
