Overview of the Business Major

The business major at UC Davis is designed to equip students with a comprehensive understanding of business principles and practices. Students can expect to receive a well-rounded education that covers essential areas such as finance, marketing, management, and entrepreneurship. The program emphasizes experiential learning, allowing students to apply theoretical concepts to real-world challenges. Moreover, UC Davis is known for its collaborative environment, encouraging teamwork and cross-disciplinary approaches to problem-solving.

The business major is primarily offered through the UC Davis Graduate School of Management, where students can choose from various specializations tailored to their career aspirations. This flexibility allows students to focus on their interests while gaining a solid foundation in general business principles.

Curriculum and Course Structure

The curriculum for the business major at UC Davis is both rigorous and comprehensive. It includes core courses that cover fundamental business concepts, as well as elective courses that allow students to delve deeper into specific areas of interest. The core courses typically include subjects such as:

- Financial Accounting
- Managerial Economics
- Marketing Management
- Organizational Behavior
- Operations Management
- Business Law

In addition to core courses, students can select from a variety of electives that align with their career goals. These electives might include advanced topics such as international business, digital marketing, and corporate finance. The program also includes opportunities for hands-on learning through case studies, group projects, and internships, enhancing students' practical skills and preparing them for the workforce.

Experiential Learning Opportunities

Experiential learning is a cornerstone of the business major at UC Davis. Students are encouraged to participate in internships, which provide invaluable real-world experience. The university has strong connections with local and national businesses, helping students secure positions that complement their studies.

Furthermore, UC Davis offers various consulting projects that allow students to work directly with businesses to solve real challenges. This not only enhances their learning but also builds their professional networks.
