Cabin Layout and Design

The cabin layout of the Etihad 787 business class is designed for optimal comfort and privacy. The business class section is typically arranged in a 1-2-1 configuration, allowing all passengers direct aisle access. This arrangement not only maximizes space but also enhances the overall travel experience by providing a sense of privacy, which is especially appreciated on long-haul flights.

Design Aesthetics

The interior design of the 787 business class cabin showcases a blend of modern elegance and Arabian touches. The use of soft lighting, neutral colors, and high-quality materials creates a serene environment conducive to relaxation. Large windows outfitted with electronic dimming technology allow passengers to enjoy the view or shield themselves from sunlight with ease.

Space and Storage

Passengers in Etihad 787 business class will find ample personal space and storage options. Each seat features a personal storage compartment, allowing travelers to stow personal belongings conveniently. The overhead bins are spacious enough to accommodate larger carry-on luggage, ensuring that the cabin remains clutter-free.

Seat Features and Comfort

One of the highlights of the Etihad 787 business class is its seat comfort. The seats are designed to provide maximum relaxation, featuring adjustable settings to cater to individual preferences.

Seat Specifications

The seats in Etihad's business class can recline into fully flat beds, measuring 80 inches in length. This is particularly valuable for long-haul flights, as it allows passengers to rest comfortably. The width of the seats is approximately 20.5 inches, providing ample room for different body types.

Personalization Options

Each seat features customizable settings, allowing passengers to adjust the firmness of the seat, lumbar support, and recline angles. Furthermore, passengers can enjoy privacy screens that can be raised to create a more secluded space, ideal for working or resting undisturbed.
