History and Background

The Pomerantz Business Library has a rich history that reflects its commitment to providing high-quality business education and research resources. Established in the early 1990s, the library was designed to support the growing needs of business students and faculty at the university. Its name honors a notable benefactor whose contributions have significantly enhanced the library's offerings.

Over the years, the library has evolved to incorporate the latest technologies and methodologies in information management. It has transformed from a traditional library model into a dynamic learning environment equipped with modern facilities and resources tailored to the demands of the business world.

Key Resources and Collections

The Pomerantz Business Library boasts an extensive collection of resources that cater to diverse business disciplines. These resources include books, academic journals, databases, and industry reports, ensuring that users have access to the most relevant and up-to-date information.

Books and Academic Journals

The library's book collection features a wide range of titles covering various aspects of business, including management, finance, marketing, and entrepreneurship. Additionally, the library subscribes to numerous academic journals that publish peer-reviewed research, providing users with critical insights into current business trends and theories.

Databases and Industry Reports

Access to specialized databases is a hallmark of the Pomerantz Business Library. These databases include comprehensive market research reports, financial data, and business news. Users can consult resources such as:

- Business Source Complete
- ProQuest Central
- Statista
- Mintel

These databases are invaluable for conducting in-depth research and gaining a competitive edge in business studies.

Services Offered

The Pomerantz Business Library provides a range of services designed to support its users. These services not only enhance the research experience but also facilitate learning and professional development.

Research Assistance

One of the key services offered is personalized research assistance. Librarians are available to help users navigate the vast array of resources, develop research strategies, and locate specific information. This support is crucial for students embarking on major projects or theses.

Workshops and Training Sessions

The library regularly conducts workshops and training sessions aimed at improving users'

research skills. Topics may include:

- Using library databases effectively
- Understanding citation management tools
- Conducting market research

These educational opportunities empower users to make the most of the resources available to them.

Utilizing the Library for Research

To maximize the benefits of the Pomerantz Business Library, users should familiarize themselves with its layout and available tools. Understanding how to navigate the library can significantly enhance the research experience.

Navigating the Library Resources

The library features a user-friendly catalog that allows visitors to search for books, journals, and other materials by title, author, or subject. Additionally, physical and digital signage throughout the library directs users to various sections, ensuring easy access to resources.

Study Spaces and Group Collaboration Areas

The library provides designated study spaces that accommodate both individual and group work. These areas are equipped with necessary technology, including computers and collaborative tools, fostering an environment conducive to learning and teamwork.

Digital Resources and Access

In today's digital age, the Pomerantz Business Library places a strong emphasis on providing online resources. Users can access a myriad of digital materials from anywhere, making research more flexible and convenient.

Online Databases and E-books

The library's online databases and e-book collections are extensive, allowing users to conduct research remotely. Students and faculty can log in to access essential journals, articles, and e-books relevant to their studies.

Virtual Reference Services

The library offers virtual reference services that enable users to connect with librarians through chat, email, or video call. This service is particularly beneficial for remote

learners or those who cannot visit the library in person.

Support Services for Users

The Pomerantz Business Library recognizes the diverse needs of its users and has established various support services to address them effectively.

Personalized User Accounts

Users can create personalized accounts that allow them to save searches, bookmark resources, and manage their borrowing preferences. This feature enhances the overall user experience by providing a tailored approach to resource management.

Interlibrary Loan Services

If a resource is not available within the Pomerantz Business Library, users can take advantage of interlibrary loan services. This system allows users to borrow books and materials from other libraries, expanding their access to information significantly.

Conclusion

The Pomerantz Business Library stands as a vital resource for students, researchers, and professionals. Its extensive collections, comprehensive services, and digital offerings ensure that users have the tools necessary to succeed in their academic and business pursuits. By leveraging the library's resources and support, individuals can enhance their research capabilities and gain insights that are crucial for navigating the complex world of business. As the library continues to adapt to the evolving landscape of information access, it remains a cornerstone of academic excellence and professional development.
