Types of Coverage Offered

The Hartford provides a wide range of coverage options to ensure that businesses are well-protected against various risks. Understanding the different types of coverage available is essential for business owners seeking adequate protection.

General Liability Insurance

General liability insurance is fundamental for businesses of all sizes. It covers bodily injury, property damage, and personal injury claims made against the business. This type of insurance is crucial for protecting not just the finances of the business but also its reputation.

Property Insurance

Property insurance covers damage to physical assets such as buildings, equipment, and inventory due to events like fire, theft, or natural disasters. This coverage ensures that businesses can recover quickly from losses and continue operations without significant financial strain.

Workers' Compensation Insurance

Workers' compensation insurance is essential for businesses with employees. It provides coverage for medical expenses and lost wages for employees who sustain injuries or illnesses while performing their job duties. This insurance is not only a legal requirement in many states but also crucial for maintaining a safe and supportive work environment.

Business Owner's Policy (BOP)

A Business Owner's Policy combines general liability and property insurance into one package, often at a lower cost than purchasing each policy separately. This option is ideal for small to medium-sized businesses looking for comprehensive coverage without the complexity of multiple policies.

Professional Liability Insurance

Professional liability insurance, also known as errors and omissions insurance, protects businesses against claims of negligence or inadequate work. This type of coverage is particularly important for service providers and professionals who may face lawsuits related to their services.
