Understanding the AP Calculus AB Exam

The AP Calculus AB exam is designed to assess students' understanding of the concepts and applications of calculus. It covers topics such as limits, derivatives, integrals, and the Fundamental Theorem of Calculus. The exam is equivalent to a first-semester college calculus course and is intended for students who have completed pre-calculus and are ready to tackle more advanced mathematical concepts.

Students who perform well on the AP Calculus AB exam can earn college credit or advanced placement in college calculus courses, which can save time and money in their higher education journey. The exam is administered by the College Board, which also oversees the AP program and its various subjects.

When is the AP Calculus AB Exam 2024?

The AP Calculus AB exam is scheduled to take place on **Monday, May 6, 2024**
