Program Structure and Curriculum

The BS in Economics at UT Austin is structured to provide a robust foundation in economic theory, quantitative methods, and applied economics. The program is designed for students who seek to understand economic behavior and the functioning of markets, enabling them to analyze complex economic issues effectively.

Core Curriculum

The core curriculum of the BS Economics program includes essential courses that cover both microeconomics and macroeconomics, statistical methods, and econometrics. Students will typically study the following subjects:

- Principles of Microeconomics
- Principles of Macroeconomics

- Introduction to Econometrics
- Statistical Analysis in Economics
- Economic Theory

These foundational courses ensure that students grasp the fundamental concepts of economics and are prepared for advanced topics in their later years of study.

Electives and Specializations

In addition to core courses, students can choose from a variety of elective courses that allow them to specialize in specific areas of interest. Popular electives may include:

- International Economics
- Labor Economics
- Development Economics
- Public Economics
- Environmental Economics

These electives enable students to tailor their education to their career goals, whether they are interested in policy analysis, international trade, or economic research.

Admission Requirements

Admission to the BS Economics program at UT Austin is competitive, and prospective students must meet specific criteria to be considered for acceptance. Understanding these requirements is crucial for applicants aiming to secure a place in this prestigious program.

General Admission Criteria

Applicants must fulfill the following general admission criteria:

- Completion of the ApplyTexas or Coalition application.

- Submission of official high school transcripts.
- Completion of standardized tests (SAT or ACT scores).
- Letters of recommendation (if required).
- A personal statement or essay highlighting academic achievements and goals.

It is vital for applicants to demonstrate strong academic performance, particularly in mathematics and related subjects, as these are critical for success in economics.

Transfer Students

Transfer students interested in the BS Economics program must also meet specific criteria, including:

- Completion of a minimum number of college credit hours.
- Demonstration of a competitive GPA, typically above 3.0.
- Submission of college transcripts from all previously attended institutions.

Transfer applicants may also be required to submit a personal statement and letters of recommendation, depending on their circumstances.
