Overview of the CCNY Economics Department

The CCNY Economics Department is dedicated to advancing the understanding of economic issues through rigorous academic programs and research initiatives. Located in the heart of New York City, the department benefits from its urban setting, allowing students to engage with real-world economic challenges. The faculty comprises accomplished scholars and practitioners who bring diverse perspectives to the classroom, ensuring that students receive a well-rounded education.

Established with the aim of promoting economic literacy and critical thinking, the CCNY Economics Department offers a dynamic curriculum that covers a wide range of topics, including microeconomics, macroeconomics, international economics, and economic policy. The department's mission is not only to provide students with theoretical knowledge but also to equip them with practical skills that are essential for success in the field of economics.

Academic Programs Offered

The CCNY Economics Department offers several academic programs designed to cater to the diverse interests of students. These programs include undergraduate degrees, graduate degrees, and certificate programs, each structured to provide a comprehensive understanding of economics and its applications.

Undergraduate Programs

At the undergraduate level, students can pursue a Bachelor of Arts (BA) in Economics. This program emphasizes a solid foundation in economic theory, quantitative methods, and policy analysis. Students are encouraged to develop analytical skills and critical thinking abilities that are vital for addressing economic issues.

Graduate Programs

The Economics Department also offers a Master of Arts (MA) in Economics. This graduate program is tailored for students who wish to deepen their understanding of economic theory and its applications in policy-making and research. It prepares graduates for advanced roles in various sectors, including government, finance, and academia.

Certificate Programs

In addition to degree programs, the department provides certificate programs that focus on specific areas of economics, such as economic analysis and data analytics. These programs are designed for professionals seeking to enhance their skills or pivot their careers towards economics-related fields.

Faculty and Research Opportunities

The faculty at the CCNY Economics Department is composed of distinguished scholars who are actively engaged in research across various areas of economics. Their expertise spans topics such as labor economics, health economics, environmental economics, and economic development. This breadth of knowledge enriches the learning experience for students, as they have the opportunity to learn from thought leaders in the field.

Research Initiatives

Students in the department are encouraged to participate in research initiatives, which can be a significant aspect of their academic journey. Engaging in research allows students to apply theoretical concepts to real-world problems, enhancing their analytical and research

skills. The department often collaborates with local organizations and institutions to address pressing economic issues, providing students with practical experience and networking opportunities.

Mentorship and Guidance

The faculty members are committed to mentoring students, guiding them through their academic and professional endeavors. This mentorship includes advising on course selections, research projects, and career paths. Faculty members often help students connect with internships and job opportunities, leveraging their extensive professional networks.
