Overview of the Economics Department

The economics department at Texas A&M University is dedicated to advancing the study and application of economic theories and principles. Established in the early 20th century, the department has evolved significantly over the decades, becoming one of the leading departments in the nation. It is part of the College of Liberal Arts and is committed to providing a rigorous education that prepares students for various career paths in economics, finance, business, and public policy.

The department prides itself on fostering an inclusive environment that encourages diverse perspectives and collaborative learning. With a strong emphasis on both theoretical and applied economics, the department aims to equip students with the necessary analytical tools and critical thinking skills essential for addressing real-world economic issues.

Academic Programs Offered

The economics department at TAMU offers a variety of academic programs tailored to meet the needs of its diverse student population. These programs encompass undergraduate, master's, and doctoral degrees, providing a comprehensive educational journey for students at every level.

Undergraduate Programs

The undergraduate program in economics consists of a Bachelor of Arts (BA) and a Bachelor of Science (BS) in Economics. Both degrees provide students with a solid foundation in economic theory, quantitative methods, and practical applications. Students can choose from various electives, allowing them to specialize in areas such as:

- Labor Economics
- International Economics
- Public Economics
- Environmental Economics
- Development Economics

Graduate Programs

The graduate offerings include a Master of Arts (MA) in Economics and a Ph.D. program. The MA program is designed for those seeking advanced training in economic analysis, while the Ph.D. program focuses on preparing students for academic and research careers. Both programs emphasize rigorous coursework and research methodologies, ensuring graduates are well-equipped for their future endeavors.

Faculty and Research Expertise

The economics department at TAMU boasts a distinguished faculty composed of experts in various fields of economics. Faculty members are not only committed educators but also active researchers who contribute significantly to academic discourse and policy discussions.

Areas of Expertise

Faculty members specialize in a range of economic disciplines, including but not limited to:

- Microeconomic Theory
- Macroeconomic Policy
- Behavioral Economics
- Econometrics
- Industrial Organization

This diverse expertise allows students to engage with cutting-edge research and gain insights into contemporary economic issues. Faculty members frequently publish in reputable journals and participate in conferences, further enhancing the department's academic reputation.

Resources and Facilities

The economics department at TAMU is equipped with a range of resources and facilities designed to support student learning and research. The department provides access to state-of-the-art technology, research databases, and economic modeling software, all of which facilitate a comprehensive learning experience.

Library and Research Access

The university's library system offers extensive collections of books, journals, and electronic resources pertinent to economics. Students can access a wide array of economic data and research materials, enabling them to conduct thorough analyses and support their academic work.
