## Program Overview

The USF Master's in Economics program is designed to provide students with a robust understanding of economic theory and its practical applications. The program is tailored for those interested in pursuing careers in government, private sector, or academia, with a strong emphasis on analytical and quantitative skills. Students can expect to engage with a diverse curriculum that prepares them for the complexities of economic analysis and policy development. The faculty consists of experienced professionals and academics who provide a supportive learning environment and mentorship.

## Program Structure

The program typically requires 30 credit hours to complete, which can be accomplished in one to two years, depending on whether students attend full-time or part-time. The curriculum comprises core courses, electives, and a capstone project or thesis option. This structure allows students to tailor their education according to their interests and career aspirations.

## Learning Environment

USF provides a collaborative and dynamic learning environment, encouraging students to participate in discussions, group projects, and research. The program also emphasizes the importance of real-world applications, integrating practical experiences through internships and partnerships with local businesses and organizations.

## Curriculum Details

The curriculum for the USF Master's in Economics is comprehensive, covering a wide range of topics essential for a solid foundation in economics. The program includes core courses such as Microeconomic Theory, Macroeconomic Theory, Econometrics, and Applied Economics. These courses are designed to provide students with the theoretical and analytical tools necessary to analyze complex economic issues.

### Core Courses

- **Microeconomic Theory:** Focuses on consumer behavior, production, and market structures.
- **Macroeconomic Theory:** Examines aggregate economic variables, including inflation, unemployment, and economic growth.
- **Econometrics:** Introduces statistical methods used to analyze economic data and test hypotheses.
- **Applied Economics:** Applies economic theory to real-world problems, encouraging practical analysis.

### Elective Courses

Students can choose from a variety of elective courses to hone their skills in specific areas of interest. Electives may include topics such as Behavioral Economics, International Trade, Public Economics, and Environmental Economics. This flexibility allows students to tailor their education to meet their career goals and interests.

## Admission Requirements

To apply for the USF Master's in Economics program, candidates must meet specific admission requirements. These requirements ensure that students are adequately prepared for the rigorous curriculum and can succeed in the program.

## **General Admission Criteria**

- A completed application form submitted through the USF application portal.
- A bachelor's degree from an accredited institution, preferably in economics or a related field.
- Official transcripts from all post-secondary institutions attended.
- Letters of recommendation from academic or professional references.
- A statement of purpose outlining career goals and reasons for pursuing the degree.
- A satisfactory score on the GRE or GMAT may be required for some applicants.

## **International Students**

International applicants must also demonstrate proficiency in English through standardized tests such as TOEFL or IELTS, along with meeting the general admission criteria. Additionally, students must provide evaluations of their academic credentials through an approved service.

## **Career Opportunities**
