Selecting the Right Images

The first step is to choose images that represent different bands. Look for iconic album covers, memorable band photographs, or distinctive logos. Ensure the images are clear and recognizable, but not too obvious. A good rule of thumb is to select images that vary in difficulty to cater to all knowledge levels.

Organizing Your Quiz

Once you have your images, organize them into a coherent sequence. You might want to start with easier questions to build confidence and then gradually increase the difficulty. Number each image and prepare answer sheets or a digital format where participants can write down their guesses.

Decide on the rules of the quiz. Will it be timed? How many points will each question be worth? Will there be bonus questions for extra points? Clearly outline the rules before starting to ensure everyone understands how the quiz will work.
