UNDERSTANDING ANXIETY DISORDERS

ANXIETY IS A NATURAL HUMAN EMOTION THAT CAN SERVE AS A VITAL WARNING SYSTEM, ALERTING US TO POTENTIAL DANGERS. HOWEVER, WHEN THESE FEELINGS OF WORRY, NERVOUSNESS, OR UNEASE BECOME PERSISTENT, OVERWHELMING, AND INTERFERE WITH DAILY LIFE, THEY CAN INDICATE AN ANXIETY DISORDER. THESE DISORDERS ARE MORE THAN JUST TEMPORARY STRESS; THEY ARE COMPLEX MENTAL HEALTH CONDITIONS CHARACTERIZED BY EXCESSIVE FEAR AND APPREHENSION, OFTEN WITHOUT A CLEAR OR PRESENT THREAT. IT'S IMPORTANT TO RECOGNIZE THAT ANXIETY DISORDERS ARE NOT A SIGN OF WEAKNESS, BUT RATHER A MEDICAL CONDITION THAT CAN BE EFFECTIVELY MANAGED WITH THE RIGHT APPROACH.

THE DIAGNOSTIC AND STATISTICAL MANUAL OF MENTAL DISORDERS (DSM-5) OUTLINES SEVERAL CATEGORIES OF ANXIETY DISORDERS, EACH WITH ITS UNIQUE SET OF SYMPTOMS AND TRIGGERS. WHILE THEY SHARE COMMON THREADS OF WORRY AND FEAR, THE SPECIFIC MANIFESTATIONS CAN VARY SIGNIFICANTLY FROM PERSON TO PERSON. THIS IS WHERE THE DESIRE TO ASK "WHAT TYPE OF ANXIETY DO I HAVE QUIZ" ARISES, AS INDIVIDUALS SEEK TO PINPOINT THEIR SPECIFIC EXPERIENCE WITHIN THIS BROAD SPECTRUM.

COMMON TYPES OF ANXIETY AND THEIR CHARACTERISTICS

NAVIGATING THE VARIOUS FORMS OF ANXIETY CAN BE CHALLENGING, BUT UNDERSTANDING THE CORE FEATURES OF EACH TYPE IS THE FIRST STEP TOWARD IDENTIFICATION. THESE DISORDERS ARE NOT ALWAYS DISTINCT AND CAN SOMETIMES OVERLAP, BUT RECOGNIZING THE PREDOMINANT SYMPTOMS CAN BE INCREDIBLY HELPFUL.

GENERALIZED ANXIETY DISORDER (GAD)

GENERALIZED ANXIETY DISORDER, OFTEN ABBREVIATED AS GAD, IS CHARACTERIZED BY EXCESSIVE AND PERSISTENT WORRY ABOUT A VARIETY OF EVERYDAY THINGS. THIS WORRY IS OFTEN DIFFICULT TO CONTROL AND CAN OCCUR WITHOUT ANY SPECIFIC TRIGGER. PEOPLE WITH GAD MIGHT FIND THEMSELVES CONSTANTLY ANTICIPATING DISASTER, EXCESSIVELY CONCERNED ABOUT FINANCES, HEALTH, FAMILY, OR WORK, EVEN WHEN THERE'S LITTLE OR NO REASON TO WORRY. THE CONSTANT STATE OF APPREHENSION CAN LEAD TO PHYSICAL SYMPTOMS LIKE RESTLESSNESS, FATIGUE, MUSCLE TENSION, AND SLEEP DISTURBANCES.

IMAGINE FEELING LIKE YOU'RE ALWAYS ON HIGH ALERT, EVEN WHEN YOU'RE SITTING ON YOUR COUCH WATCHING TV. THAT'S A GLIMPSE INTO WHAT LIFE CAN BE LIKE FOR SOMEONE WITH GAD. THE MIND IS PERPETUALLY RACING, CATALOGING POTENTIAL PROBLEMS AND WORST-CASE SCENARIOS, CREATING A CONSTANT HUM OF UNEASE THAT CAN BE EXHAUSTING.

SOCIAL ANXIETY DISORDER (SOCIAL PHOBIA)

SOCIAL ANXIETY DISORDER, ALSO KNOWN AS SOCIAL PHOBIA, INVOLVES AN INTENSE FEAR OF SOCIAL SITUATIONS. THIS ISN'T JUST SHYNESS; IT'S A DEBILITATING FEAR OF BEING JUDGED, EMBARRASSED, OR HUMILIATED IN FRONT OF OTHERS. INDIVIDUALS WITH SOCIAL ANXIETY MIGHT WORRY FOR DAYS OR EVEN WEEKS BEFORE A SOCIAL EVENT, ANTICIPATING AWKWARD INTERACTIONS AND FEELING INTENSE SELF-CONSCIOUSNESS. COMMON TRIGGERS INCLUDE PUBLIC SPEAKING, MEETING NEW PEOPLE, EATING OR DRINKING IN PUBLIC, OR EVEN MAKING EYE CONTACT. THE FEAR IS SO PROFOUND THAT IT OFTEN LEADS TO AVOIDANCE OF SOCIAL SITUATIONS, WHICH CAN SIGNIFICANTLY IMPACT RELATIONSHIPS, CAREER OPPORTUNITIES, AND OVERALL QUALITY OF LIFE.

THINK ABOUT A TIME YOU FELT INCREDIBLY AWKWARD IN A GROUP. NOW, IMAGINE THAT FEELING AMPLIFIED TO A LEVEL WHERE YOU'D RATHER STAY HOME THAN FACE IT. THAT'S THE INTENSE APPREHENSION EXPERIENCED BY THOSE WITH SOCIAL ANXIETY. THE SPOTLIGHT FEELS BLINDING, AND THE FEAR OF SAYING OR DOING THE WRONG THING IS ALL-CONSUMING.

PANIC DISORDER

PANIC DISORDER IS MARKED BY RECURRENT, UNEXPECTED PANIC ATTACKS. A PANIC ATTACK IS A SUDDEN SURGE OF INTENSE FEAR THAT REACHES ITS PEAK WITHIN MINUTES, ACCOMPANIED BY A RANGE OF PHYSICAL AND PSYCHOLOGICAL SYMPTOMS. THESE CAN INCLUDE A RACING HEART, SWEATING, TREMBLING, SHORTNESS OF BREATH, CHEST PAIN, NAUSEA, DIZZINESS, AND A FEAR OF LOSING CONTROL OR DYING. WHAT MAKES PANIC DISORDER DISTINCT IS THE RECURRENCE OF THESE ATTACKS AND THE PERSISTENT WORRY ABOUT HAVING ANOTHER ONE, LEADING TO AVOIDANCE OF SITUATIONS WHERE THEY MIGHT OCCUR. THESE ATTACKS OFTEN STRIKE WITHOUT ANY OBVIOUS WARNING OR CONNECTION TO A SPECIFIC STRESSOR.

A PANIC ATTACK CAN FEEL LIKE YOUR BODY IS BETRAYING YOU. IT'S A SUDDEN ONSLAUGHT OF EXTREME PHYSICAL SENSATIONS THAT CAN BE TERRIFYING, LEAVING YOU FEELING LIKE YOU'RE HAVING A MEDICAL EMERGENCY. THE AFTERMATH IS OFTEN A PERIOD OF INTENSE ANXIETY ABOUT WHEN THE NEXT ATTACK MIGHT STRIKE.

SPECIFIC PHOBIAS

SPECIFIC PHOBIAS ARE CHARACTERIZED BY AN INTENSE, IRRATIONAL FEAR OF A PARTICULAR OBJECT OR SITUATION. THIS FEAR IS DISPROPORTIONATE TO THE ACTUAL DANGER POSED BY THE OBJECT OR SITUATION. COMMON EXAMPLES INCLUDE PHOBIAS OF HEIGHTS (ACROPHOBIA), SPIDERS (ARACHNOPHOBIA), FLYING (AVIOPHOBIA), OR ENCLOSED SPACES (CLAUSTROPHOBIA). WHEN CONFRONTED WITH THE FEARED OBJECT OR SITUATION, INDIVIDUALS WITH SPECIFIC PHOBIAS EXPERIENCE IMMEDIATE AND INTENSE ANXIETY, OFTEN LEADING TO A STRONG URGE TO ESCAPE OR AVOID IT ALTOGETHER. THE ANTICIPATION OF ENCOUNTERING THE PHOBIC STIMULUS CAN ALSO CAUSE SIGNIFICANT DISTRESS.

CONSIDER THE FEAR OF FLYING. FOR SOMEONE WITH AVIOPHOBIA, THE THOUGHT OF BOARDING A PLANE CAN TRIGGER INTENSE PANIC, EVEN THOUGH STATISTICALLY, FLYING IS ONE OF THE SAFEST FORMS OF TRAVEL. THIS IRRATIONAL AND OVERWHELMING FEAR DICTATES THEIR BEHAVIOR AND LIMITS THEIR ABILITY TO TRAVEL OR PARTICIPATE IN ACTIVITIES THAT INVOLVE THEIR PHOBIA.

OTHER ANXIETY-RELATED CONDITIONS

BEYOND THE MOST COMMON TYPES, OTHER CONDITIONS FALL UNDER THE BROADER UMBRELLA OF ANXIETY. THESE INCLUDE:

- **OBSESSIVE-COMPULSIVE DISORDER (OCD):** CHARACTERIZED BY UNWANTED, INTRUSIVE THOUGHTS (OBSESSIONS) AND REPETITIVE BEHAVIORS OR MENTAL ACTS (COMPULSIONS) PERFORMED TO REDUCE THE ANXIETY CAUSED BY THE OBSESSIONS.
- **POST-TRAUMATIC STRESS DISORDER (PTSD):** DEVELOPS AFTER A PERSON EXPERIENCES OR WITNESSES A TRAUMATIC EVENT, LEADING TO INTRUSIVE MEMORIES, AVOIDANCE OF REMINDERS, NEGATIVE CHANGES IN THINKING AND MOOD, AND HYPERAROUSAL.

- SEPARATION ANXIETY DISORDER: MORE COMMON IN CHILDREN BUT CAN OCCUR IN ADULTS, INVOLVING EXCESSIVE FEAR OR ANXIETY ABOUT SEPARATION FROM ATTACHMENT FIGURES.

How a "What Type of Anxiety Do I Have Quiz" Works

A "WHAT TYPE OF ANXIETY DO I HAVE QUIZ" IS DESIGNED TO BE A HELPFUL, ALBEIT PRELIMINARY, TOOL FOR SELF-EXPLORATION. THESE QUIZZES ARE TYPICALLY STRUCTURED TO ASK A SERIES OF QUESTIONS ABOUT YOUR EXPERIENCES, FEELINGS, AND BEHAVIORS. BY ANALYZING YOUR RESPONSES, THE QUIZ AIMS TO IDENTIFY PATTERNS THAT ARE MORE COMMONLY ASSOCIATED WITH CERTAIN TYPES OF ANXIETY DISORDERS. IT'S LIKE A GUIDED INTROSPECTION, PROMPTING YOU TO THINK ABOUT ASPECTS OF YOUR MENTAL WELL-BEING YOU MIGHT NOT HAVE CONSCIOUSLY CONSIDERED BEFORE.

THE EFFECTIVENESS OF SUCH A QUIZ LIES IN ITS ABILITY TO SIMPLIFY COMPLEX DIAGNOSTIC CRITERIA INTO RELATABLE QUESTIONS. FOR INSTANCE, A QUESTION MIGHT ASK ABOUT THE FREQUENCY AND INTENSITY OF YOUR WORRIES, OR WHETHER YOUR FEARS ARE TRIGGERED BY SPECIFIC SOCIAL SITUATIONS OR OBJECTS. YOUR ANSWERS ARE THEN OFTEN ASSIGNED WEIGHTED SCORES THAT POINT TOWARDS A PARTICULAR ANXIETY CLASSIFICATION. HOWEVER, IT'S CRUCIAL TO REMEMBER THAT THESE QUIZZES ARE NOT A SUBSTITUTE FOR PROFESSIONAL DIAGNOSIS.

MOST QUIZZES WILL COVER:

- THE NATURE OF YOUR WORRIES (E.G., CONSTANT, SITUATIONAL, SPECIFIC FEARS).
- PHYSICAL SYMPTOMS YOU EXPERIENCE (E.G., RACING HEART, DIFFICULTY BREATHING, MUSCLE TENSION).
- TRIGGERS FOR YOUR ANXIETY (E.G., SOCIAL INTERACTIONS, SPECIFIC OBJECTS, UNCERTAINTY).
- THE IMPACT OF ANXIETY ON YOUR DAILY LIFE (E.G., AVOIDANCE OF SITUATIONS, INTERFERENCE WITH WORK OR RELATIONSHIPS).
- FREQUENCY AND DURATION OF ANXIOUS EPISODES.

INTERPRETING QUIZ RESULTS AND NEXT STEPS

RECEIVING THE RESULTS OF A "WHAT TYPE OF ANXIETY DO I HAVE QUIZ" CAN BE A MOMENT OF CLARITY, BUT IT'S VITAL TO APPROACH THEM WITH A BALANCED PERSPECTIVE. THE QUIZ RESULTS ARE NOT A DEFINITIVE DIAGNOSIS. INSTEAD, THEY SHOULD BE VIEWED AS AN INDICATOR, SUGGESTING AREAS WHERE YOU MIGHT WANT TO EXPLORE FURTHER. IF THE QUIZ SUGGESTS A PARTICULAR TYPE OF ANXIETY, IT'S AN INVITATION TO LEARN MORE ABOUT THAT SPECIFIC CONDITION AND SEE IF THE DESCRIPTIONS RESONATE WITH YOUR LIVED EXPERIENCE. DON'T BE ALARMED IF THE RESULTS SEEM INCONCLUSIVE OR POINT TO A COMBINATION OF FACTORS; ANXIETY CAN BE COMPLEX.

THE MOST IMPORTANT NEXT STEP AFTER TAKING A QUIZ IS TO USE THE INFORMATION AS A SPRINGBOARD FOR SEEKING PROFESSIONAL GUIDANCE. A MENTAL HEALTH PROFESSIONAL, SUCH AS A THERAPIST, COUNSELOR, OR PSYCHIATRIST, CAN CONDUCT A THOROUGH ASSESSMENT, TAKING INTO ACCOUNT YOUR COMPLETE HISTORY, SYMPTOMS, AND OVERALL WELL-BEING. THEY ARE TRAINED TO DISTINGUISH BETWEEN DIFFERENT ANXIETY DISORDERS AND OTHER POTENTIAL MENTAL HEALTH CONDITIONS. THIS PROFESSIONAL EVALUATION IS THE GOLD STANDARD FOR ACCURATE DIAGNOSIS AND DEVELOPING AN EFFECTIVE TREATMENT PLAN.

CONSIDER THE QUIZ RESULTS AS A CONVERSATION STARTER WITH A HEALTHCARE PROVIDER. YOU CAN BRING YOUR FINDINGS AND DISCUSS HOW THEY ALIGN WITH YOUR PERSONAL EXPERIENCE. THIS COLLABORATIVE APPROACH ENSURES THAT YOU RECEIVE THE MOST ACCURATE AND PERSONALIZED CARE.

WHEN TO SEEK PROFESSIONAL HELP

WHILE SELF-ASSESSMENT TOOLS LIKE A "WHAT TYPE OF ANXIETY DO I HAVE QUIZ" CAN BE INFORMATIVE, THERE ARE DEFINITIVE SIGNS THAT INDICATE IT'S TIME TO REACH OUT TO A MENTAL HEALTH PROFESSIONAL. IF YOUR ANXIETY IS SIGNIFICANTLY INTERFERING WITH YOUR ABILITY TO FUNCTION IN YOUR DAILY LIFE, WORK, OR RELATIONSHIPS, IT'S A STRONG SIGNAL TO SEEK HELP. THIS INTERFERENCE CAN MANIFEST IN MANY WAYS, SUCH AS STRUGGLING TO MEET DEADLINES, AVOIDING SOCIAL GATHERINGS WITH FRIENDS AND FAMILY, OR FINDING IT DIFFICULT TO CONCENTRATE ON TASKS.

FURTHERMORE, IF YOU ARE EXPERIENCING INTENSE AND FREQUENT PANIC ATTACKS, OR IF YOU HAVE PERSISTENT THOUGHTS OF HARMING YOURSELF OR OTHERS, SEEKING IMMEDIATE PROFESSIONAL HELP IS CRUCIAL. THESE ARE SERIOUS INDICATORS THAT REQUIRE URGENT ATTENTION FROM A QUALIFIED HEALTHCARE PROVIDER. DON'T HESITATE TO CONTACT A CRISIS HOTLINE OR GO TO THE NEAREST EMERGENCY ROOM IF YOU FEEL YOU ARE IN IMMEDIATE DANGER.

OTHER IMPORTANT CONSIDERATIONS INCLUDE:

- PERSISTENT FEELINGS OF HOPELESSNESS OR WORTHLESSNESS.
- SIGNIFICANT CHANGES IN SLEEP PATTERNS OR APPETITE.
- SUBSTANCE USE TO COPE WITH ANXIETY.
- DIFFICULTY MANAGING EVERYDAY TASKS DUE TO WORRY.
- A STRONG SENSE THAT YOUR ANXIETY IS BEYOND YOUR CONTROL.

LIVING WITH AND MANAGING ANXIETY

DISCOVERING "WHAT TYPE OF ANXIETY DO I HAVE QUIZ" RESULTS IS JUST THE BEGINNING OF A JOURNEY TOWARD MANAGING AND THRIVING WITH ANXIETY. EFFECTIVE MANAGEMENT OFTEN INVOLVES A MULTI-FACETED APPROACH THAT COMBINES PROFESSIONAL TREATMENT WITH LIFESTYLE ADJUSTMENTS AND SELF-CARE STRATEGIES. THERAPY, PARTICULARLY COGNITIVE-BEHAVIORAL THERAPY (CBT) AND EXPOSURE THERAPY, IS HIGHLY EFFECTIVE IN HELPING INDIVIDUALS UNDERSTAND THEIR ANXIETY TRIGGERS, CHALLENGE NEGATIVE THOUGHT PATTERNS, AND DEVELOP COPING MECHANISMS.

MEDICATION CAN ALSO PLAY A ROLE FOR SOME INDIVIDUALS, PRESCRIBED BY A PSYCHIATRIST TO HELP MANAGE THE SYMPTOMS OF ANXIETY. HOWEVER, IT'S OFTEN MOST BENEFICIAL WHEN USED IN CONJUNCTION WITH THERAPY. BEYOND PROFESSIONAL INTERVENTIONS, ADOPTING HEALTHY LIFESTYLE HABITS CAN SIGNIFICANTLY CONTRIBUTE TO ANXIETY MANAGEMENT. REGULAR PHYSICAL ACTIVITY HAS BEEN SHOWN TO REDUCE STRESS AND IMPROVE MOOD. PRACTICING MINDFULNESS AND MEDITATION CAN HELP CALM THE MIND AND INCREASE PRESENT-MOMENT AWARENESS.

IT'S ALSO IMPORTANT TO BUILD A STRONG SUPPORT SYSTEM, WHETHER IT'S CONFIDING IN TRUSTED FRIENDS AND FAMILY OR JOINING A SUPPORT GROUP. LEARNING RELAXATION TECHNIQUES, ENSURING ADEQUATE SLEEP, AND MAINTAINING A BALANCED DIET ARE ALSO VITAL COMPONENTS OF A HOLISTIC APPROACH TO LIVING WELL WITH ANXIETY. REMEMBER, MANAGING ANXIETY IS AN ONGOING PROCESS, AND FINDING WHAT WORKS BEST FOR YOU IS KEY TO LIVING A FULFILLING LIFE.

FAQ

Q: HOW ACCURATE ARE “WHAT TYPE OF ANXIETY DO I HAVE QUIZ” RESULTS?

A: WHILE “WHAT TYPE OF ANXIETY DO I HAVE QUIZ” TOOLS CAN OFFER A HELPFUL STARTING POINT FOR SELF-REFLECTION AND EDUCATION, THEY ARE NOT A SUBSTITUTE FOR A PROFESSIONAL DIAGNOSIS. THEIR ACCURACY IS LIMITED BY THE SELF-REPORTING NATURE OF THE QUESTIONS AND THE COMPLEXITY OF ANXIETY DISORDERS. THEY CAN PROVIDE AN INDICATION OF POTENTIAL AREAS TO EXPLORE FURTHER WITH A HEALTHCARE PROFESSIONAL.

Q: CAN A QUIZ DIFFERENTIATE BETWEEN ANXIETY AND NORMAL STRESS?

A: MOST WELL-DESIGNED QUIZZES CAN HELP YOU DIFFERENTIATE. THEY OFTEN FOCUS ON THE INTENSITY, DURATION, AND IMPACT OF YOUR FEELINGS ON DAILY LIFE. PERSISTENT, OVERWHELMING WORRY THAT INTERFERES WITH FUNCTIONING IS MORE INDICATIVE OF AN ANXIETY DISORDER THAN TEMPORARY STRESS. HOWEVER, A PROFESSIONAL EVALUATION IS ALWAYS THE MOST RELIABLE WAY TO MAKE THIS DISTINCTION.

Q: IF A QUIZ SUGGESTS I HAVE GAD, WHAT SHOULD I DO NEXT?

A: IF A QUIZ SUGGESTS YOU MIGHT HAVE GENERALIZED ANXIETY DISORDER (GAD), THE NEXT CRUCIAL STEP IS TO CONSULT WITH A MENTAL HEALTH PROFESSIONAL, SUCH AS A THERAPIST OR COUNSELOR. THEY CAN CONDUCT A THOROUGH ASSESSMENT TO CONFIRM A DIAGNOSIS AND DISCUSS APPROPRIATE TREATMENT OPTIONS, WHICH MAY INCLUDE THERAPY, LIFESTYLE CHANGES, OR MEDICATION.

Q: ARE THERE SPECIFIC QUESTIONS I SHOULD EXPECT IN AN ANXIETY QUIZ?

A: YES, YOU CAN EXPECT QUESTIONS ABOUT THE FREQUENCY AND INTENSITY OF YOUR WORRIES, SPECIFIC FEARS YOU EXPERIENCE, PHYSICAL SYMPTOMS (LIKE RACING HEART, DIFFICULTY BREATHING), TRIGGERS FOR YOUR ANXIETY, AND HOW THESE FEELINGS IMPACT YOUR DAILY LIFE, RELATIONSHIPS, AND WORK.

Q: CAN A QUIZ HELP ME UNDERSTAND IF MY ANXIETY IS SITUATIONAL OR GENERALIZED?

A: YES, MANY QUIZZES ARE DESIGNED TO EXPLORE THIS VERY DISTINCTION. THEY WILL ASK ABOUT WHETHER YOUR ANXIETY IS TIED TO SPECIFIC SITUATIONS (LIKE PUBLIC SPEAKING OR SOCIAL EVENTS) OR IF IT'S A MORE PERVERSIVE, CONSTANT WORRY ABOUT VARIOUS ASPECTS OF LIFE.

Q: WHAT IS THE DIFFERENCE BETWEEN A QUIZ AND A PROFESSIONAL DIAGNOSIS FOR ANXIETY?

A: A QUIZ IS A SELF-ASSESSMENT TOOL THAT OFFERS PRELIMINARY INSIGHTS. A PROFESSIONAL DIAGNOSIS INVOLVES A COMPREHENSIVE EVALUATION BY A QUALIFIED MENTAL HEALTH EXPERT WHO USES STANDARDIZED DIAGNOSTIC CRITERIA, CLINICAL INTERVIEWS, AND POTENTIALLY PSYCHOLOGICAL TESTING TO ACCURATELY IDENTIFY YOUR CONDITION AND ITS SEVERITY.

Q: IF I TAKE MULTIPLE ANXIETY QUIZZES, WILL I GET DIFFERENT RESULTS?

A: IT'S POSSIBLE TO GET SLIGHTLY DIFFERENT RESULTS FROM DIFFERENT QUIZZES, AS THEY MAY VARY IN THEIR QUESTION DESIGN, WEIGHTING SYSTEMS, AND THE SPECIFIC DISORDERS THEY AIM TO IDENTIFY. CONSISTENCY ACROSS MULTIPLE QUIZZES MIGHT REINFORCE CERTAIN SUSPICIONS, BUT NONE REPLACE A PROFESSIONAL ASSESSMENT.

Q: HOW OFTEN SHOULD I CONSIDER RETAKING AN “WHAT TYPE OF ANXIETY DO I HAVE

QUIZ”?

A: RETAKING A QUIZ IS GENERALLY NOT RECOMMENDED AS A PRIMARY APPROACH TO MANAGING ANXIETY. IF YOU ARE ACTIVELY WORKING WITH A PROFESSIONAL, THEY WILL GUIDE YOUR PROGRESS. IF YOU ARE STILL IN THE EXPLORATORY PHASE, FOCUSING ON LEARNING MORE ABOUT POTENTIAL DISORDERS AND SEEKING PROFESSIONAL HELP IS MORE BENEFICIAL THAN REPEATEDLY TAKING SELF-ASSESSMENT TOOLS.
