These exams evaluate various skills, including pedagogical knowledge, subject-specific content, and the ability to teach diverse student populations.

Understanding the structure of the NYSTCE is essential for effective nystce test prep. The exams are typically divided into two main categories: Content Specialty Tests (CST) and Assessment of Teaching Skills-Written (ATS-W). Each test has specific content areas and competencies that candidates must master to pass successfully.

Types of NYSTCE Exams

There are several types of exams included in the NYSTCE, each tailored to different teaching areas and grade levels. Candidates should be aware of the specific tests they need to take based on their intended certification. Here are the primary categories:

Content Specialty Tests (CST)

The Content Specialty Tests assess candidates' knowledge in specific subject areas. These tests include:

- Multi-Subject (Grades 1–6)
